2021-2022 School Accountability Report Card

(Published During the 2022-2023 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2022-23 School Overview

Mission: To educate students with special needs in the least restrictive learning environment to enable them to pursue productive and independent lives.

Goals:

- Identify, track and share the multiple pathways that reflect student achievement and success (formal testing, functional and social achievements, human interest stories, etc.).
- Assure legal compliance through participation in the Coordinated Compliance Review process.
- Train staff in the use of evidence based best practices.

Expand partnerships with Community Based Foundations and organizations.

Special Day Class (SDC) Program: The program provides a full range of services designed to meet the needs of students with severe disabilities from pre-kindergarten through age 22. Programs emphasize the integration of students with age-appropriate peers, placement in the least restrictive environment, a comprehensive curriculum for severely handicapped, and programs to support transition. Leadership and support exists to ensure the quality of all students' instructional programs as well as having facilities that are appropriate and maintained in a safe condition. The special education curriculum for students with severe disabilities is aligned with the common core state standards for the state of California.

Braille Center: The center provides resource services to low vision and blind students from school districts throughout Contra Costa County. These students receive modified versions of the same materials as other students receive including Braille textbooks, literature books, worksheets and tactile representations such as maps and graphs with raised edges. The center also is responsible for maintaining a library of Braille and large print books and ordering additional materials from the state as requested by the districts.

A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements

The school ground breaking occurred in 1984. There are four classrooms on the Mauzy site. The school also has an occupational therapy room.

All students are under direct staff supervision while in transit to and from school with assistance from transportation personnel. While on school sites, students are under direct supervision from both classified and certificated personnel. Students may be early released only to authorized adults who are required to identify themselves and sign out the student in the main office.

Access to school site is restricted, requiring all visitors to check in at the main office for clearance and registration. All facilities and grounds are observed and monitored for unauthorized visitors who are reported to the main office for appropriate action. When visitors are approved to be on campus they are given a temporary badge identifying them as a guest. Volunteers are required to be interviewed and approved by site administration and to register with the central office Human Resources Department and receive TB clearance. All regular personnel are provided with picture I.D. badges for their use.

All sites are regularly cleaned and maintained by custodial and gardening staff. Facilities maintenance is ongoing and coordinated with site principals through the central office facilities department.

More intensive cleaning and maintenance occurs during student break/vacation periods in order to minimize impact to the learning environment.

The main site facilities have been regularly reconditioned and upgraded with a greater proportion of maintenance funds prioritized for their modernization. Emergency repairs are typically handled in a timely manner.

Adequate and appropriate classroom and playground space is available. Playground areas have been upgraded to present level safety codes. Specialized equipment is accessible for use by students with special needs. Workspace and break/lounge areas for staff have been designated.

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22

2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2022-23 Opportunities for Parental Involvement

Parents have several opportunities to support the school through volunteer activities and by being a member of the Mauzy Foundation which supports teachers and students by providing yearly grants to classrooms for additional equipment and instructional materials and supports the music program for all classrooms. The group also sponsors fundraisers and special holiday events for the students.

Parents are involved in the education of their students through the Individual Education Program (IEP) process. As an IEP team member, each parent participates in the development of annual academic, behavioral, social and/or transition goals for his/her child.

For more information on how to become involved or support the Mauzy school, contact Mauzy School at (925) 837-6007.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Professional Development

Mauzy certificated staff receive three full days of staff development and classified receive one full day of staff development under current union contracts. Content includes instructional methods, classroom management, and training designed to improve academic instruction and student communication.

CCCOE has 3 full days of Professional Development time to support staff with evidence based practices and individualized instructional support to support the unique needs of the students and classrooms in general.

The CCCOE provides 11 half-days of staff development per union contact related to instructional methods, classroom management and training to address student needs such as communication. The content is a direct reflection of the Special Education Program goals, parent survey feedback, and staff needs assessments as related to student performance. Also, there have been required trainings on technology, health care and safety.

The CCCOE offers support to teachers through a variety of programs, as determined by need. The Teacher Induction Program (TIP) provides a collaborative model of support providing a pathway for teachers to clear their credential. CCCOE support intern teachers by collaboratively with their home university, and are generally referred to TIP once they receive their preliminary credential. Another relatively new teacher support program was created for those teachers who may be new to their assignment. This program is called the New Assignment Mentor Support (NAMS) program and both veteran and new teachers may be eligible. Finally, struggling teachers may be referred to the Peer Assistance Review (PAR) program as a result of an unsatisfactory evaluation. Also, a website has been developed to help all teachers access quality instructional lessons and links to existing exemplary programs. Methods of professional development may include after school workshops individual conferences, peer coaching, classroom visitations, veteran teacher observation and attendance at professional development conferences and meetings.

This table displays the number of school days dedicated to staff development and continuous improvement.
